Create a new fork

A *fork* is a copy of a repository. Forking a repository allows you to freely experiment with changes without affecting the original project.

Required fields are marked with an asterisk (*).

Owner *

Repository name *

 JoPuskar ▾

/

CSCI-4047-800

✔️ CSCI-4047-800 is available.

By default, forks are named the same as their upstream repository. You can customize the name to distinguish it further.

Description

A Data Analytics and Visualizations course repository.

54 / 350 characters

☒ Copy the `main` branch only
